

ECRC~SIMEC – Atlantic Region has a position for an Operations Support person for the Newfoundland Response Centre, based in Mount Pearl, Newfoundland. The position is focused on offshore oil spill response activities, training of responders, maintenance and testing of oil spill response equipment, and facility readiness ([www.ecrc-simec.ca](http://www.ecrc-simec.ca)).

Desirable qualifications include:

- Self-motivated team player capable of functioning in a dynamic daily environment.
- Ability to function in a challenging oil spill response environment that requires occasional short notice travel.
- Experience and/or training in adult instruction and supervising projects and small groups of workers.
- Experience in preventative maintenance, repair, specification and selection of mechanical, electrical and hydraulic equipment.
- Experience working in the marine environment, vessel operations, and equipment deployment and operation.
- Strong organizational and work-planning skills.
- Excellent written and oral communications combined with experience using computer based applications - word processing, spreadsheet, database and presentations.
- The candidate should have demonstrated strong leadership, organization, time-management, decision-making and interpersonal skills.
- Supervisory and/or management experience desirable
- Experience and ability to follow standard operating procedures and adhere to company policies.
- Minimum of a 3 year technology diploma or equivalent experience.
- Minimum five years of related work experience.
- Valid Class 5 driver's license.

Salary to be commensurate with skills and experience.

This is a full-time permanent position with an expected start date summer 2018.
