

SMART ASH BURNER

Inventory

	Great Lakes	Québec	Atlantic	Total
Smart Ash Burner	1	4	5	10

Application

SmartAsh cyclonic barrel burner is a portable incinerator. Used to burn oiled debris recovered in remote access areas.

Description

An electrical blower is installed on a steel barrel, providing oxygen inside the barrel to ensure a clean burn. When combustion is completed it leaves 3% ash.

Technical Data

Length: 1 m (3 ft.)
Width: 1 m (3 ft.)
Height: 1.3 m (4 ft.)

Ancillaries

Steel drum (45 gals)
